

Daycroft Online

Education Solutions for Christian Science Families

Homeschool curriculum and programs
to supplement traditional education

Now approaching its sixth year, Daycroft Online Learning Community (DOLC) offers a comprehensive, rigorous curriculum in a flexible learning environment for English-speaking students in grades K-12.

Parents serve as learning coaches and receive supportive guidance from a certified education specialist who is also a class-taught Christian Scientist. Lessons are interesting and fun, inspiring students to gain confidence and achieve success.

New!

- * *Summer School - Grades K-8*
- * *Credit Recovery - Grades 9-12*
- * *SAT Prep*

Grades K - 8

- * Choice of core courses: language arts, math, science, history, world languages
- * Training and step-by-step instructions for parent/learning coach
- * Character lessons and international community service project
- * Communication with other homeschooling Christian Science families

Grades 9 - 12

- * Choice of regular, honors and AP courses in all traditional subject areas
- * Certified teacher/content specialist for each course; "homeroom" mentoring provided by a class-taught Christian Scientist
- * Critical thinking/ethical reasoning seminar brings students together for lively, online discussions of current topics appearing in the Christian Science Monitor
